

Integral Overview

Integral is a technology and application provider of, private, white label, trading solutions to foreign exchange market participants

About Integral

Integral is the leading, independent technology and managed service provider of online trading systems to foreign exchange market participants.

Integral's flexible solutions and managed service business model supports all market participants with the solutions they need to conduct FX trading themselves or deliver branded trading services to their clientele.

Integral's private, customer-branded trading solutions are managed and operated over Integral's FX Grid®, a global inter-institutional connectivity and trading network, linking market making banks and major financial institutions.

Integral solutions include:

- **FX Inside Professional™** is the industry's most powerful direct market access (DMA) trading system. FX Inside Professional combines pricing and aggregation of FX spot prices, forwards and outright with algorithmic execution services giving you maximum liquidity and best execution.
- **FX Inside White Label™** private FX trading solutions are managed service trading systems that allow you to source, package, and deliver your liquidity, directly to your clients, under your brand. Whether you are a broker, retail aggregator or bank, Integral White Label solutions allow you to offer complete FX trading services to your institutional, corporate, professional, and retail clients.
- **FX Power Trader™** is a complete white label, retail margin trading solution that includes strategies, advanced order types, charting, and market news. Deployed in combination with FX Grid®, banks and brokers can aggregate direct market access liquidity and deliver custom price streams to suit their clients' needs.

Integral's solutions are delivered as software-as-a-service (SaaS) so that FX trading providers can enter new markets quickly without having to own and operate any IT infrastructure.

Integral provides 24x7 support, staffed by FX-knowledgeable specialists.

Founded in 1993, Integral employs more than 200 professionals and maintains development, support and sales offices in Silicon Valley, Chicago, New York, London, Tokyo, Hong Kong, Singapore and Bangalore. Investors include Accel Partners, Ignite Group, ABN Amro, Hudson Ventures, Bain Capital and AIG.
